

WHO SAID COWS CAN'T FLY?

Once upon a time, a brave cow choosed to shape her own destiny.
Welcome to *Sky Cowing*, where cows dare...

Sky Cowing is a double mode game in which the player acts as a cow, named Burlina.
In *Cowing in the wind* mode, the player helps Burlina during 100 seconds of exiting and crazy free fall. While falling, she has to stock up with bonus and to extend the flight time catching squawking ducks and inhaling big bottles of helium. But she must pay attention to many pitfalls: junk food, teasing flying pigs, dangerous anvils, storms and others weird situations.

In *Cowing in a dream* mode, the player controls Burlina while she's in a bizarre dreamy sky diving: she's just dreaming to dive in the sky, and she has to extend her sleeping time as long as she can. During the free fall, she will dream to became 'Marilyn Burlina', 'Burlina Hendrix' and many other music and movie stars, living strange and crazy moments...
